Rapunzel's Tower

Once upon a time, in a land far away, there lived a beautiful girl named Rapunzel. She had long, golden hair that reached the ground. Rapunzel lived in a tall tower, hidden deep within the forest. The only way to reach her was by climbing her magical hair.

A witch took Rapunzel when she was just a baby. The witch wanted to keep Rapunzel's magical hair all to herself. Despite being isolated, Rapunzel spent her days singing and dreaming of the outside world.

The Mighty T-Rex

The Tyrannosaurus Rex, often called T-Rex, was a fearsome dinosaur that roamed the Earth millions of years ago.

Known for its large size and powerful jaws, the T-Rex was a carnivorous predator. Its short arms, while not very useful, were compensated by its strong hind limbs.

T-Rex was one of the largest meat-eating dinosaurs, standing tall on two legs. Despite its fearsome appearance, scientists believe that T-Rex may have been capable of reaching speeds up to 20 miles per hour.
